

Talent Acquisition In Splash

We're pleased to announce an enhancement to Splash, adding a Talent Acquisition tab to your current homepage.

The two core benefits to this new tab are **Internal Vacancies** and **MyJobs**.

Internal Vacancies

This provides a quick option to view all internal jobs currently available and replaces the existing OPEN JOBS view. You'll get to see jobs across all regions providing better insight to your career development.

Internal Vacancies

CURRENT VACANCIES

Here are our current internal vacancies. Use search to find the job for which you wish to apply. Click the job name to see more details and to apply.

Search Vacancies

VACANCY NAME	VACANCY NO	HIRING MANAGER	WORK LOCATION	APPLICATIONS CLOSE DATE	VIEW DETAILS
Finance Business Analyst Partner	VN7525	Gareth Meredith	France - Le Mans		+
Purchasing and Planning Analyst	VN7524	Gareth Meredith	USA - Piscataway, NJ		+
eCommerce Sales Manager	VN7523	Gareth Meredith	UK - Shepherd's Bush		+
Assistant Financial Accountant	VN7522	Gareth Meredith	UK - Shepherd's Bush		+

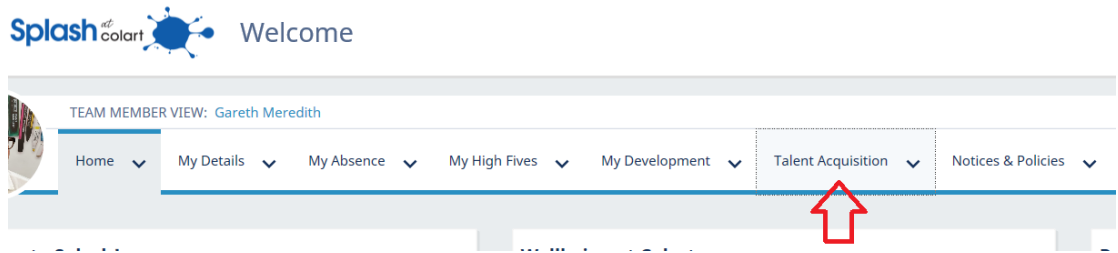

MyJobs

If you're a hiring manager, this replaces our existing, paper-based process in the creation and approval of a requisition.

The benefits to this are numerous and include:

- No more paper trails and full visibility of the status of an existing requisition
- The ability to view candidate applications online against your requisition
- A more streamlined candidate experience.
- No more manual reviewing of candidates allowing faster processing of applications.
- Quicker resumes to you and faster communication back to the candidate
- Safe storage of data in compliance with GDPR requirements
- Options to develop insightful dashboards to better assist with future talent acquisition decisions

To view this, head to your Splash homepage and click on the Talent Acquisition tab:

For hiring managers, like everything else in Splash, functionality is intuitive, however we've developed training videos (see below) that provide a step-by-step guide to creating a requisition.

Training Videos
