

HO Sustainability Coffee Morning Earth Overshoot day & Veganism

On Wednesday 14th August at Head Office, we had a Sustainability Coffee Morning, presented by Ajita Chamberlin and Emily Steer.

During that time, we discussed the #movethedate movement, and what we can do as individuals and as a business. We talked about circular economies. Fast-fashion, food waste, the difference between organic and non-organic products and compared products.

As food is the central topic of the latest issue of Elephant magazine, Emily Steer talked about the evolution of food in art, the rise of veganism, and shared some impressive numbers.

We then shared some vegan food that colleagues brought with them, including guacamole, hummus, a chocolate torte, apple compote, biscuits and fruits!
