

# Global VPN Change

Over the next few weeks we will be rolling out a new single global VPN connection to all users in group. This will replace the existing localised VPN connections (ie "EUR VPN") with just simply "COLART VPN" for all sites.

## **Why are we changing this?**

The purpose of this is to simplify management and enhance agility for users that roam between regions within Colart.

## **Next Steps**

Please watch out for the emails from CCS (Change Control Squad) with more technical detail in how this will affect users and implementation dates in the coming weeks.
