

CTAM REOPENED

天津柯雅复工了

After a long wait and epidemic prevention preparation for plant reopening, CTAM has officially returned to work on February 20, 2020!

At this moment we are very excited! According to the priority plan, we arranged OFO personnel as the first batch to restart working which kicked off the delivering goods to customers again. It is our significant responsibility to meet the needs of customers as soon as possible and bring the value to customers. Furthermore, CTAM will also arrange production restart in a planned way until full open of all functions, whilst still keeping aligned to the epidemic prevention requirements.

We are so grateful! Because when we are helpless, we received care and support from Colart headquarters and Business Units throughout the world. We have received greetings and support from Dennis, Dominique, Jane and Bruno as well as; John Mendryk, Loic Chaumont, Rich Johnson, Torkel Telefsen and other colleagues have helped us to purchase globally the necessary anti epidemic masks for resumption of work.

I am also praising to the united strength of CTAM! In order to return to work as soon as possible, a lot of preparation began during the Spring Festival. Some colleagues spent their Chinese lunar new year's eve in the unit. The management team watched the epidemic situation every day and judged when to submit the application for reopening at the best reasonable time. In order to prevent the possibility of cross infection during meals, some colleagues creatively used CTAM materials to design the partitions expected for the dining room table (many materials are not easy to purchase and manufacture at this time). Our people actively installed the equipment and fixed them during their holiday. Thanks to the efforts of these committed colleagues, CTAM is in the first batch since the outbreak of the coronavirus for company reopenings as a Non 9-type enterprise (non 9-type enterprises, refers to those companies not related to the prevention of the coronary epidemic and the protection of residents' lives)

Thanks again for your caring, helping and encouraging to CTAM, my dear friends!

经过漫长的等待和防疫复工准备，CTAM已于2020年2月20号正式复工了！

此时此刻我们激动万分！根据优先计划，我们第一批复工安排了OFO人员，顺利开启了重新给客户发货的工作，能让客户的需求尽快得到满足，给客户带来价值，是我们义不容辞的责任。天津柯雅也会有计划地陆续安排生产直至全面复工。

此时此刻我们也心怀感激！因为在我们无助的时候，从世界各地传来对中国柯雅人的关怀和帮助。我们先后收到丹尼斯、多米尼克、Jane等领导的问候与支持；John Mendryk, loic, Rich Johnson, BRUNO LEBOURDAIS Torkel Tellefsen等同事也在全球范围内帮我们采购复工必需的防疫口罩。

此时此刻我们也在赞叹CTAM的团队力量！为了早日复工，很多复工准备从春节期间就开始了，有的同事年三十都是在单位度过的；管理团队天天盯着疫情变化，判断着何时递交复工申请为最佳合理时间；为了防止吃饭时交叉感染的可能性，有的同事创造性使用柯雅所拥有的材料设计出用于餐厅餐桌的隔板装置（因为很多物资不好在疫情期间采购进行制作），设备人员在值班期间积极进行了安装和固定。正因为有这些可爱同事们的努力，我们CTAM成为自冠状病毒疫情发生以来，非9类企业中第一批复工的企业（非9类企业，即与消灭冠状病毒疫情相关，及保障居民生活的企业以外的企业。）

再次感谢关心、帮助、鼓励CTAM的友人们！
