

Navigating COVID-19

New site

Knowing that Covid-19 presents us all with challenges never experienced before, we have taken the opportunity to launch a “go to” site to try to help you navigate your way through our new way of living and working.

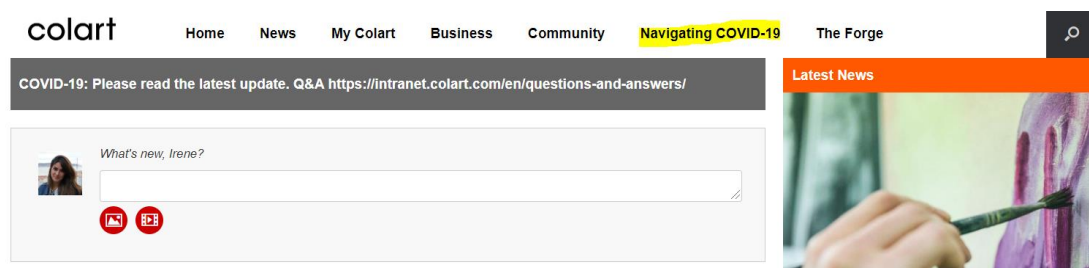

In this site, which can be found on the Intranet, you will be able to find a variety of information related to COVID-19. This includes: -

1. COVID-19 latest updates
2. Links to Town Hall Meetings – you’ll be able to check out the recording of the webinar this week
3. Dennis’s latest Blog
4. A toolbox where you will find relevant information linked to for example:
 - Wellbeing tips
 - Toolkit for parents
 - How to stay fit and healthy during self-confinement
5. Brand communications and links to Instagram to connect you to the dialogue with our consumers

Our aim is to build on this site by continuing to add all relevant information that can in some way ease the challenges of these difficult times.

Finally, our Culture Collective will be adding different initiatives every week to bring fun, creativity and a little bit of competition!

Where to find the new site?

Please reach out your manager or HR if you have any questions, or email Irene Rubio if you have any suggestion, articles or tips to share.
