

e-Learning at Colart

An update

Self-directed e-Learning – Any Time, Any Place, Any Pace launching March 27th

At Colart we really believe in the importance of helping people develop themselves personally and professionally. The foundation for this development is the Colart Academy which has four pillars for development: leadership, skill, community and service and identifies the different routes that exist in Colart for development please [click here](#) to find out more.

We pride ourselves on the mutual ownership (individual and company) for the development journey and we recognize that development and growth (both personal and professional) comes in many forms – for this reason we have identified a wide panel of development opportunities for people to consider using e-Learning.

To support the Colart Academy we are pleased to announce the launch of our [e-Learning platform](#) on our Intranet with content linked to the academy's four pillars. Whilst the go-live date is March 27th, the site is still being developed and expanded and we wanted you to experience e-Learning at this early stage.

In addition, through our partnership with Gartner, the world's leading insight and advisory company, Colart is proud to offer a variety of e-Learnings to provide you the knowledge and tools to support your development journey. To access the Gartner e-Learnings, you will need to register. Our e-Learning platform has a [registration link](#) at the top of each section.

Welcome to our ***self-directed e-Learning – Any Time, Any Place, Any Pace!***

We are keen to hear your thoughts so please use the feedback tool and together we can work towards really **inspiring our people** at Colart.

Kind regards,

Torkel Tellefsen
US HR Director
